○ For a list of compatible phones, please refer to www.hondahandsfree.com *Always use the recommended USB flash memory device. Some USB memory devices may not work in this audio unit. †Fuel consumption CO₂ and weight figures are measured according to EC directive procedures. As a result of driving behaviour, road, traffic and weather conditions, general state and equipment level of the vehicle, real life fuel consumption and CO₂ figures may differ from these official values. In case of weight (defined as mass in running order), it applies to vehicles with standard equipment. Optional equipment may increase this figure and decrease the payload. *Connectivity for Aha™ app (including internet radio) and for internet browsing is through Wi-Fi tethering or Mobile Wi-Fi Router. Data usage and roaming charges may result from using applications on Honda CONNECT. We recommend you check your mobile phone subscribed package. Internet browsing function can only be used when the car is stationary. Note: Honda CONNECT is also MirrorLink enabled (this feature is only available where user's smartphone is compatible with Honda CONNECT MirrorLink™).

Vehicle versions and equipment levels presented in this brochure may not be available in all countries. For precise information, please contact your local Honda dealer.
